## About This Software

**You can slow down any recording without changing pitch using Voice Again.** Optimized for voice, this software is designed for quick analysis and transcription of voice. Whether you are listening to an interview or transcribing a dictation, Voice Again is the right tool for the job.

**Slow down a recording up to 10 times!** The high-quality signal processing in Voice Again maintains clarity at variety of speeds. Use the Voice Clarity feature to improve voice understanding.

**Zero-in, analyze and listen to any part of a recording** with the advance playback tools. Superb noise reduction algorithms help to clean-up recordings by silencing noisy backgrounds, hiss and hums.

**Bookmark important parts of a recording with annotations.** Textual flags give you lightning-quick navigation and a way of accurately documenting interviews or dictations.

**Compatibility with latest foot controllers** such as the VEC Infinity In-USB-2 foot pedal. Just plug and play: instantly improve your productivity.

**Create new content by rendering high-quality audio files.** The content can be used for review of a project, sharing and collaborating with others, or for adding to multimedia projects.
